

# QUIKFRAME

Make a Snap Decision.

*It's an open and shut case. QuikFrame's c-spring clips snap open on all four sides for swift and effortless graphic changes. Hang it or attach it to a freestanding display. There are many options with QuikFrame. Pick a size. Go standard and choose a rounded or mitered corner. You can customize it to your dimensions and choose a special finish or colour. Double-side it for twice the impact. It's so very versatile. Wherever there's a poster, there's a need for QuikFrame.*
